YOU WILL EVER NEED**

**VISION<sup>TM</sup>**  
**G R O U P**

Vision Group is the fastest growing Integrated Facilities Management company, an ISO 9001:2015 and OHSAS 18001: 2007 certified, dedicated to provide the finest services with a team of experts from all the multifaceted segments. VISION, commenced its operations from Hyderabad in December 2001, with a vision to achieve the highest standards for all the Integrated Services. We are dedicated to meet the most challenging standards of the client.

The Company has now entered into its eighteenth year of operations and has developed the necessary 'Skills and Expertise' to provide Integrated FM Services which includes Security, Housekeeping, Manpower out sourcing, Pest Control and Office Support. We have effectively spanned across Telugu States, as of now.

We presently have over 2000 plus trained employees, a team of 25 plus competent & qualified professionals & 80 plus esteemed clients spread across 120 plus locations and are accepted as a 'One stop solution provider'. Our premium list of clients includes IT & ITES, MNC's, Corporates, Industries, Banks, Hotels, Hospitals, Malls & Retail, Infra Structure/ Construction projects and Residential Sites etc.

We are MSME certified with PSARA License and are members of CAPSI, APSA, IISSM, FTAPCCI & CII. We sincerely look forward to being associated with your esteemed organization as your 'most preferred service partner'. Assuring you of our best Services at all times.

## Our Target

“To establish the highest Benchmark Standards in the Facility Management industry and to become the 'Leading service provider', Southern India.”

## VISION & MOSSION

To become the Pioneer service provider for integrated facility management services. To provide assistance to people, authorities and companies in order to meet their demands for Integrated Facility Services on a 24/ 7 basis.

OUR SERVICES

## Security

Our Security Services appreciate the importance of providing a secured environment for all our clients. We have a strong team of security personnel who are thorough with the recognized security protocols and trained in emergency & disaster management techniques, to keep men and material out of harm's way.

They undergo specialised training in unarmed combat, and make your facility an unconquerable bastion from unwanted intruders.

We undertake a thorough background check of all the personnel prior to recruitment, besides a host of other measures come as an added assurance.

- 24 Hours Response Team
- Our operations staff are provided with an extensive communication network
- Regular checks and patrolling by night staff
- Provision of additional security staff at short notice, whenever so required
- Immediate response on short calls
- Our Security Managers are in regular contact with the clients, to provide assistance to their Security problems if any
- Action Plan during Riots & Strikes

#### OUR SERVICES

## Office Support and Manpower Outsourcing

Our company is an established brand name for sourcing of talent for contract staff to support their basic administrative, Production as well as office support. The Business Support Services Wing, undertakes talent search for 'right personnel for the right job', based on the candidates performance at the aptitude test and interview. We also 'train & groom' the candidates by imparting requisite skills, before employing them at sites.

A prior tracking of the candidates past history, work status and conduct with the previous employer is ascertained, to 'ensure and assure' our esteemed client, that the candidate they appoint is genuine in all aspects of work culture.

We provide human resources outsourcing and support staff for facilitating service towards:

Administrative Function

Production

Projects Execution

#### OUR SERVICES

## House Keeping

Housekeeping is not limited to just cleanliness alone. It defines the 'Neatness and Orderliness' of work areas, tripping hazards, removal of wastages, debris, clutter & spills and other relevant Fire hazards, from home and work areas. The work demands restructuring of the workplace and the storage facilities. We follow 5S standards adopted from Toyota Lean Manufacturing Culture.

Good housekeeping is also a basic tenet of accident and fire prevention process. For ambiances that gleam with health and life, trust our exclusive and specialist housekeeping services for it. Our team is also armed with rodent and pest control techniques and latest disinfectants amongst others, to ensure that your facility remains ever clean, healthy and vivacious at all times. The team is committed to an extremely effective housekeeping process, as a standard ongoing operation.

We strive to give the best Housekeeping services especially customized to suit your personalised requirements:

- Permanently employed full-time staff
- Latest cleaning techniques
- Well trained employees for usage of Latest Equipment
- Flexible cleaning schedules to accommodate 24/ 7 services as per the customers work schedule.

OUR SERVICES

## Railway Relays

Successfully completed the work of indoor installation of Electronic Interlocking System at different stations of South Central Railway, Central Railway, and South Western Railway.

The execution of works involved are EI equipment erection and wiring to relay Railway Wiring up to CT Racks, Indoor and Outdoor Earthing, Lightning Surge protection arrangement and Simulation wiring, along with Optional works of Full/Main IPS Power rack Installation and wiring, Lead Acid Battery Charging and discharging Three Cycles, VRLA Battery Installation and Wiring, Fuse Alarms Installation wiring, Fire Alarm Installation and wiring, Block/UFSBI Installation and wiring, Couch Handle Installation & Wiring, Diesel Generator I&C, SS DAC (Axle Couch Installation wiring and MS DAC Installation and Wiring.

A set of electronic interlocking logic bays installed at the base stations are connected to electronic terminals installed at each interlocking station by means of a fail-safe transmission circuit, allowing centralized control of the entire section. The simple system configuration, including the lack of need for interlocking logic bays to be installed at each station, makes this an economical system with good maintainability.

Setup features includes Communication and interfaces, Safety, Additional features such as direct lamp driving, direct input reading, extensive fault diagnostics and data analytics. The complete setup involves the combination of counter box to record emergency cancellation done manually, yard signalling control room setup at station with PC based VDU and Lightning Arrester ESE Type.
